Experienced **Front-End Engineer** with over 5 years of hands-on experience in designing and building **scalable** web applications using Angular. Proficient in creating **clean** and **maintainable** code while delivering high-quality user experiences. Familiar with **backend technologies** and committed to staying up to date with the latest frontend trends and best practices.

TECHNICAL SKILLS

- HTML, CSS/SCSS, Bootstrap, Responsive Design, Angular Material
- JavaScript, Es 6+, TypeScript, Angular, RxJS, NgRx, Jasmine/Karma, StoryBook
- Git, Github/Gitlab, TFS/Jira/Asana, Postman/Swagger, Yarn/Npm, Sentry
- Familiar with: PWA, Micro Frontends, Monorepo (Nx), SOLID Principles, Design Patterns, Clean Architecture, Node.js, Sql Databases (mySql, ...)

RELEVANT WORK EXPERIENCE

Faranegar Pars System Pooya, Tehran, Iran (remote)

06/2025 – Present

Frontend Engineer

- Collaborated with cross-functional teams (backend, product, QA) to deliver scalable features for airline reservation systems(Iran-Airtour CRS).
- Refactored and migrated legacy AngularJS modules to modern Angular(v18).
- Adopted Angular Signals to simplify state management and optimized change detection performance.
- Optimized styling architecture using SCSS and modern CSS practices, improving UI consistency and scalability.
- Enhanced Core Web Vitals (LCP, CLS) by implementing lazy loading, optimizing critical rendering paths, and reducing layout shifts, leading to improved performance and user engagement.

Rayvarz, Tehran, Iran (on-site)

03/2023 – 06/2025

Frontend Engineer

- Collaborated with the framework team to implemented over 10 essential features based on Figma designs and showcasing them using Storybook.
- Designed and implemented reusable Angular components and directives using Material and Bootstrap for cash management system.
- Utilized RxJS to manage asynchronous data flows and optimize application responsiveness.
- Followed clean, maintainable, and scalable code by adhering to DRY, KISS, and SOLID principles.
- Collaborated with a team of 11, including the scrum masters, designers, developers, test team and product owners, and achieved sprint goals using Jira, ensuring timely delivery.

Ileem Kavan Neshan (Iconish), Tehran, Iran (remote)

08/2021 – 03/2023

Frontend Developer

- Delivered a responsive mental health platform serving Canadian clinics and patients.
- Collaborated with designers on UI/UX best practices and responsive design techniques.
- Resolved frontend bugs reported in Sentry, improving application performance.
- Developed over 4 interactive websites based on Figma, ensuring engaging user experiences.
- Gained hands-on experience with Angular CLI, version control with Git, and task tracking tools like Asana.

Darman Kar, Urmia, Iran (on-site)

03/2021 – 08/2021

Frontend Developer

- Designed a custom WordPress template that significantly reduced request rates, optimizing performance.
- Launched a user-friendly, feature-rich e-commerce platform with WordPress.

EDUCATION

Urmia University of Technology, Urmia, Iran

10/2018 – 02/2023

Bachelor software engineering

- Executive Member, UUTCT (02/2021 - 09/2022): Generated questions and contributed to event execution.
- Executive Member, POSCON (Online International Conference): Assisted in organizing and managing conference activities.
- Collaborated with the Computer Engineering Association, gaining valuable experience in teamwork and project management.
